VOLUME II, ISSUE III

MARCH 2011

New Varieties to Look for!

As winter is in full force we have switched hemispheres and are now growing oriental lilies from Chile. With that comes a few new varieties to keep an eye out for. We are very excited and have heard wonderful feedback with regards to these new colors.

In white we have added **White Express**. This beautiful upright flower is smaller in size but has a strong stem. This white oriental will be available throughout the month of March. **Santander**, an elegant and large upright flower with a strong stem. This gorgeous lily is available year round.

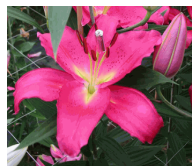

Santander

We have a number of new varieties in pink. **Fenice**, a beautiful light pink with good color on the very upright buds. It is a very strong and sturdy stem on a compact plant.

Fenice will be available till the month of May. **Tarrango**, a brand new test lily only available for a very short time. It is a stunning dark pink with vibrant buds. This lily is named after a grape used in Australian wine production, the fragrance is intoxicating.

Tarrango

Key West, a true pink with large upright buds and a strong stem. Key West will be available till May.

At Oregon Flowers we are constantly trying out new varieties of bulbs. We stay on top of new varieties being produced across the world and are some of the first to try them out. We will continue to carry the staples such as Robina, Sorbonne, Mambo, Crystal Blanca, Belladonna, and Conca D'or just to name a few.

Please try out these new varieties and send us your feedback!

Red Reflex & Stargazer

We are currently growing Red Reflex in place of the Stargazer. Stargazers for years have been an amazing variety. Over the past few years the bulbs that carry the quality that we demand and pass on to you have not been available. We have been des-

perately searching for an adequate substitute for this shortage in high quality Stargazer bulbs. We are currently working on building up our stock on Starfighter and we will continue to grow our numbers to provide the supply on to you.

We also carry a white substitute to the Stargazer known as Helvetia. Helvetia is a smaller white both in the bud size as well as the height. Both the Helvetia and Starfighter are available year round.
